Jack and Jill went up the hill to get a little high

She promised him forever as she looked him in the eyes

Little did Jack know that every word of it was lies

[Chorus]

D#m

And it all came tumbling down When he found out she's sleeping around

F#

C#

Oh, where does it leave those promises now?

D#m

B

King of the hill but she's broken his crown And his heart sinks, his head's in the clouds

F#

C#

She left him so low with her goodbye

D#m B

Now Jack's just getting high... Oh, now Jack's just getting high and high and high

Looks out on the world, wonders what Jack made of his life

She knew then that every single word of it was lies
