

# Unpretty – Jelly Roll

[Intro]

**C G Am Em Em F C F G G**

[Verse]

**C G**

Been a broken-down car on a side street

**Am Em**

Damn near lost it all on a bad week

**F**

Hmm

**C**

I was praying for change

**F G**

How could only twelve steps feel so far away?

**C G**

So many lies I start counting

**Am**

Trying to walk a straight line

**C F**

Felt like trying to move a mountain

**C**

And I was praying for change

**F G**

Would've died if I had stayed the same

**C**

Hmmm

[Chorus]

**G Am**

I hate the man I used to be

**Em F**

But he'll always be a part of me

**C**

Right now, looking at my past

**F G**

I know it's unpretty

**C G Am**

Can't hide the pain that I've been through

**Em F**

I wear my scars like my tattoos

# Unpretty – Jelly Roll

C  
The man who I was, was wrong  
F G  
But he's the one who built me  
C  
Said  
G Am Em F  
I am nothing without my sins  
C F  
I can't pretend  
G  
I'm not unpretty  
[Verse]  
C G  
Been the whiskey glass left half-empty  
Am  
Seen the bright lights a few times  
N.C. F  
And that's what saved me  
C  
Ain't no stranger to pain  
F G  
The ones who love me all feel the same  
C G  
With every one step forward, fell ten steps back  
Am Em  
Lot of years in the dark felt just like that  
F  
Oh ohhh  
C  
I never thought I'd see the day  
F  
When I'd forgive myself and say  
[Chorus]  
G Am  
I hate the man I used to be  
Em F  
But he'll always be a part of me
